

**QUALIFICATION FOR SOLE SOURCE GOVERNMENTAL  
PROCUREMENT OF  
HOT MIX ASPHALT ON DEMAND PERMANENT  
POTHOLE REPAIR SOLUTION**

**Purchase by municipal entities comprises products produced exclusively in the United States by Phoenix Industries LLC (headquartered in Las Vegas, NV) and solely licensed to PelletPATCH Distributors LLC (headquartered in Dumont, NJ) in North, Central and South America.**

**RAP Booster, PelletRAP & PelletPATCH employ a patented Green Technology that uses crumb rubber derived from waste tires that is used in conjunction with customer provided Recycled Asphalt Pavement (RAP) to provide a permanent, durable and rubberized pothole patch.**

**The Asphalt Patch Master is designed by PelletPATCH Distributors for exclusive use with its rubberized products. This machine is unique and has no competitor. The APM accepts this dry proprietary material packaged in biodegradable bags that are inserted into the hopper and heated to a specific range of temperature that melts the product and produces hot mix asphalt directly at the repair site.**

**Patents, Technical laboratory & support documentation are available upon request.**
